

# Assignment-6 Report

160010029,160010014

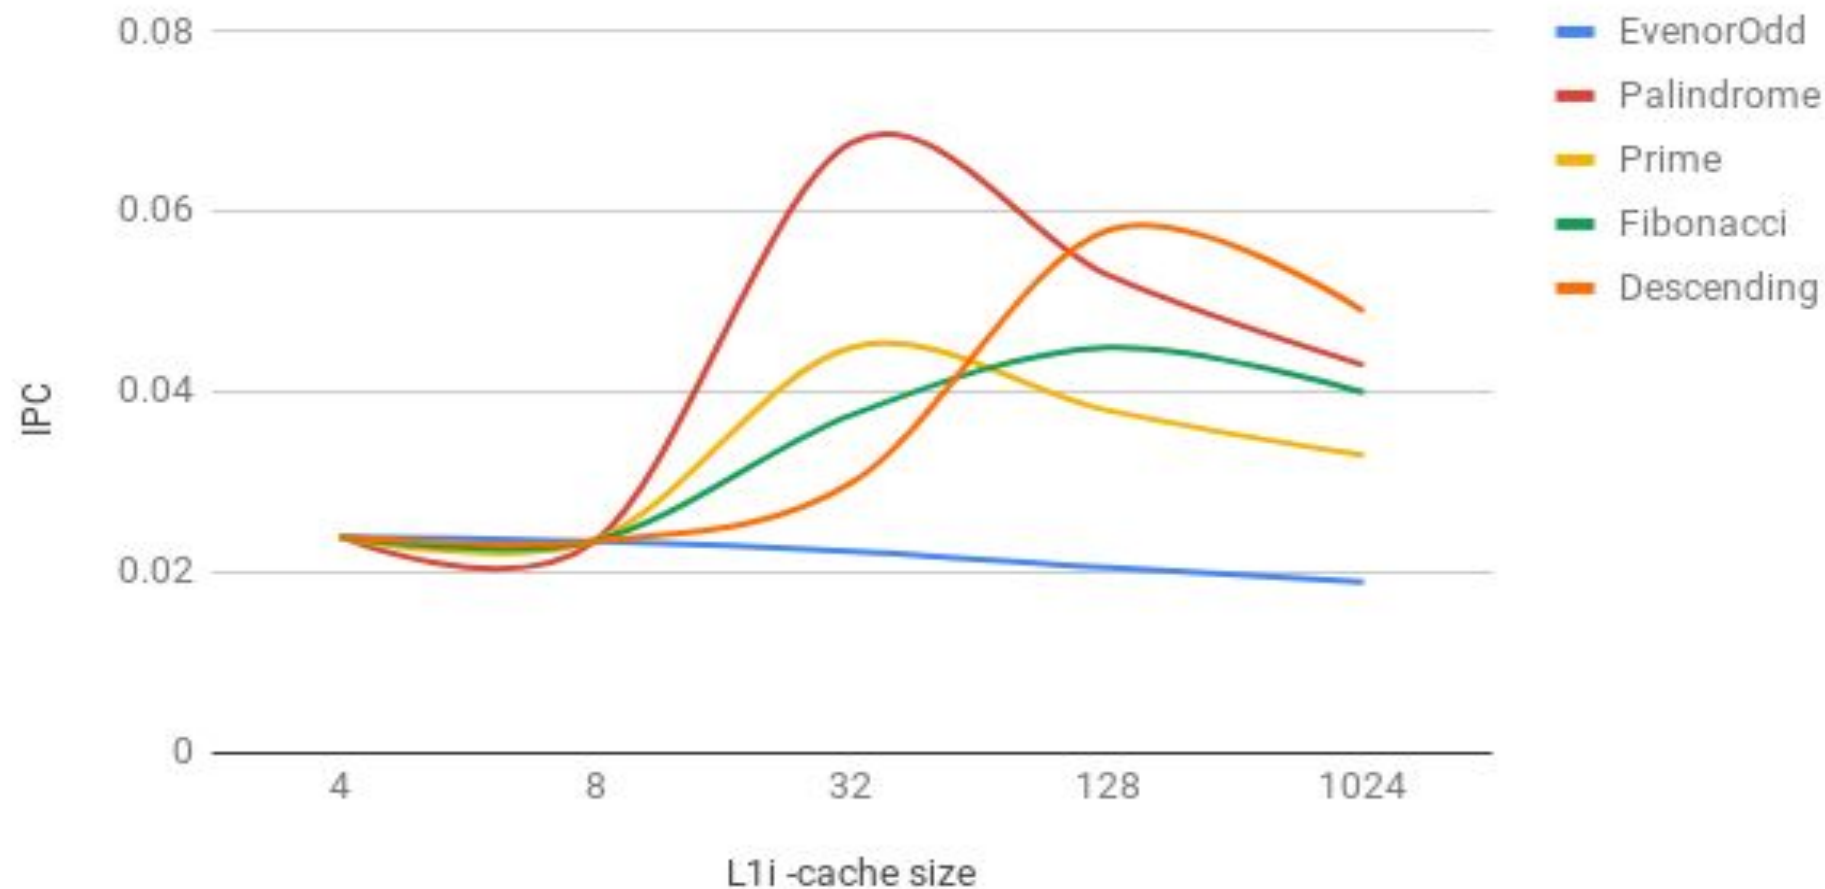

## IPC vs L1d Cache Size

## Keeping L1i cache size constant and varying L1d parameters

- IPC remained unchanged on increasing the Ld cache size in all the programs except in descending.asm

## IPC vs L1i-cache size

# Keeping L1d cache size constant and varying L1i parameters

- There is increase in IPC and there is decrease in IPC on increasing the cache size of L1i except in evenorodd.asm .
- Evenorodd.asm has a decreasing graph
